WASHINGTON, D. C., June 29,-The fol owing letter has been sent to the Comissioner of the General Land Office since the publication of the report of the Com-DEER PARK, Mp., June 22, 1885.

following appears: "The contract for the survey was given to a brother of the sileged owner of the grant and the alleged owner of the grant and the alleged owner was the bondsman." Inasmuch as my brother, John T. Elkins, was the Deputy United States Surveyor who made the survey, and I was on his bond, I assume you refer to me when you use the words, "alleged owner." In this you are in error, which I beg you will allow me to correct. I am not now, and never was, an owner, directly or indirectly, in the "Maxwell grant" This grant was confirmed by act of Congress in 1860. In 1869, siter obtaining the written opinions of some of the leading attorneys of the country, among them Geo. L'Ourtis, Mr. Evarts, Judge Noah Davis and Mr. Bayard, and that of Judah them Geo. I. Ourtis, Mr. Evarts, Judge Noah Davis and Mr. Bayard, and that of Judah P. Benjamin, of London, as to the validity of the title, which opinions are on file in your office, some foreign capitalists purchased and paid for this grant \$31,400,000, and subsequently organized a company in New Mexico to own and develop it. I had no knowledge whatever of the confirmation of the grant by Congress, or the sale in 1869 until it was consummated.

HIS ONLY CONNECTION WITH THE GRANT.

I was made its attorney in New Mexico Barlow, Larocque and Macfarland being the attorneys in New York and Mr. Benjamin the attorney in London. The law

requiring three resident directors in New Mexico, I consented to act as director of the company without any share in the management, and in order to qualify me and parily as compensation for being attorney I was given a few shares of stocks, less than 100 which proceed. less than 100, which proved of no value. In 1873 I ceased all active connection as attorney, and in 1875 resigned both as attorney and director. In 1878 or 1879 I was employed by the Receiver of the company to repre sent him before the Interior Departmen in an application for a patent, Judge Lu-cien Birdseye being the attorney for the bondholders. About this time the decicien Birdseye being the attorney for the bondholders. About this time the decision of the United States Supreme Court in the case of Tameling vs. the United States Feehold and Emigration Company reported in 3d Otto, page 644, was announced, which determined the effect of a confirmation by Congress of the Mexican grant. Upon this decision I was informed that a patent was granted, Mr. Carl Schurz being Secretary of the Interior. I have no interest directly or indirectly in the suit now pending in the courts to set aside the patent and I am indifferent as to the result thereof.

The Administration Proacher.

WASHINGTON, D. C., June 29.—Since the First Presbyterian church has become the administration church, Dr. Sunderland has lead a very busy life. In many families where a death oc there is a desire to have the President's pastor conduct the ceremonies, and so widespread is this feeling regarding funerals, marriages, this feeling regarding funerals, marriages, baptisms, etc., that it is almost impossible for the doctor to respond to the calls. Then there is the removed office-holder, the would be office-holder, the tramp, all of whom presume on a claim to his interest, though never having met him before, and seek out the parsonage on C street to deliver their grievances, and suggest that their cases should reach the President's ear. Nowthetstanding the doctor's willingness to help all in trouble, it is hardly to be expected that his answer is other than one of condolence. So frequent are these calls, relative to a multitude of matters, that his time is about as thoroughly occupied as is the President's.

TAMMANY'S PLIGHT.

The Administration Civing that Body Noth ing but Sweet Words. New York, June 29.—There is a gen erally accepted opinion expressed on all sides that President Cleveland's Custom way toward settling the question of a Democratic candidate for Governor here next fall. Ex-Mayor Edward Cooper next iall. Ex-layer Lawari Cooper, who, with Hubert O. Thompson, shares the victory of these appointments, it is well known, was a candidate under certain contingencies for this office when the unknown ex-Mayor of Buffalo was chosen.

unknown ex-Mayor of Buffalo was chosen.
Gooper was Mayor of New York about six years ago, and though he is a friend of the County Democracy, he was fortunate in managing his affairs so as not to particularly offend Tammany. He gave them few favors, but he never broke faith with them, and they always knew that Cooper would do exactly as he said.

Fo far Tammany has been entirely passed over by Gleveland, and there are now but two good appointments left. These are for United States District Attorney and Marshal. If neither of these fall to Tammany Hall a howl of disappointment will go up that will probably find its echo in November next. The Tammany ment will go up that will probably find its echo in November next. The Tammany leaders have recommended ex-Lieutenant Governor Dorsheimer for District Attor-ney. There is a growing feeling, how-ever, among the members of the organizaever, among the members of the organiza-tion that it will get nothing more substan-tial from the Administration than sweet words. John Kelly has steadily refused to recommend any one for appointment. He holds that Tammany Hall is entitled to a certain amount of recognition from President Cleveland, and a decont sense of self-respect should compel the organiza-tion to wait until it has received an inti-mation that its deserts will be faworably considered before signifying whom it wishes appointed.

PRESTON COUNTY DEMOCRATS

TERRA ALTA, June 28 .- The Democracy Freeland's Hall June 27. Amos Carroll Esq., was chosen Chairman, and H. C. Worthington, Secretary, Dr. S. M. Scott and P. A. NEW YORK, June 29 .- Mr. P. B. Delany of this city, inventor of the synchronous telegraph system, has recently patented a sists of a large copper wire that passes

down the back, with branches extending along the arms to the hands, and along the legs to the exterior of the shoes and to metal soles thereon. The wearer, if provided with a rod, may, if standing on the ground, handle electric light wires with impunity, and if out in a thunder storm, would stand a good chauce of not being hurt if his rod were struck by lightning. Mr. Deiany ought to carry a branch of his rod up the back of the neck, and have it connect with a point on the helmet of the policemen, and as give them protection. It has heretofore been proposed to have lightning-rod umbrellas, that is to say, an umbrella provided with a flexible over the outside of the umbrella, the wire reaching to and allowed to trail on the ground.

Turned the Tables.

DETROIT, June 29.-John Mullen, of this city, who was recently arrested by Pittsburgh officers on a charge of embezzling funds from the estate of John Maloney, at Pittsburgh, turned the tables on his ac-cusers this morning. Governor Alger cided that there was not sufficient grounds to warrant his extradition. Mallen was accordingly released. Not the Usual Way.

Generally when any drawing for prizes is announced, it can be relied on that the drawing will be postponed from date to date. Not so with the Chapline street rink. The owner, Messus Entler & Reynolds, have concluded to hold their great prize drawing, announced for July 5, on Wednesday, July 1-to-morrow evening. The announcement for July 5 was made on account of a typographical error in winting the titlets, but as July 5 comes. on Sunday it has been concluded to hol-the drawing as at first intended. It has the drawing as at first intended. It has been a long time since anything aroused more interest than this prize scheme. Those who have seen the prizes displayed at Dillon's, Mendel's, Fransheim's and Ewing Bros, respectively, are naturally very anxious to possess one or more. No doubt there will be a jam at the rink to-morrow night, as every ticket holder will want to be present.

LONDON PAPERS KICKING

against Henter's Demands for More Money for News Service. LONDON, June 29.—The rebellion of the cisive issue. The Reuter Company, it will be remembered, made the increased expenses to which it has been subjected by reason of the campaign in the Soudan nd the difficulties in South Africa and re-

and the difficulties in South Africa and remote Afghanistan the basis for demanding increased compensation from the great London journals for its service. This demand was not favorably received by the papers, who declared they were already paying for the service all it was worth. The Times actively opposed any increase, and at once set about organizing concerted action on the part of the papers. A meeting of the London papers proprietors was called, and after a full discussion it was decided to make a united stand against Beuler's demand for increased pay. Rather than pay more they gave it.

against Benler's demand for increased pay. Rather than pay more they gave it to understand that they contemplated freeing themselves from any occasion to take Reuter's news by establishing a news-gathering association of their own, similar to the American Associated Press. It cannot be ascertained that any decisive step has been taken since then, but enough has transpired to indicate that both parties will deliberate very cantiously before committing themselves to a policy which will lead to the inevitable rupture of the present relations. The prevalent belief among those who are best informed is that some satisfactory compromise will be
